

BESTIE BUNDLE TIPS

If you've booked our tan + LED bestie bundle you have our glow studio all to yourself! Make sure you take the time to have a tea or sparkling water on us!

If you're having a shower, it's best to do this first! Please note this only applies to the Tan + LED bestie bundle and the Tan bestie bundle. LED only services do not have shower access.

If you've booked the Tan + LED bestie bundle you MUST ALWAYS have your LED first. The LED instructions can be found on the ipad in the room and also on our website.

Once you've completed your LED session you can make your way into the tanning room. The tanning instructions can also be found on the ipad on the wall and also on our website.

BESTIE BUNDLE TIPS

Our LED treatment rooms have two zero gravity massage chairs and LED devices. So the LED treatments happen side by side at the same time.

The tan room only has one shower and one versaspa pro. So you will go one after the other. Our tans only take four minutes, so the waiting time is minimal!
