

LED + TANNING BUNDLE TIPS

1.

If you've booked our tan + LED bundle you have our glow studio all to yourself! Make sure you take the time to have a tea or sparkling water on us!

2.

If you're having a shower, it's best to do this first!

3.

Then, you **MUST ALWAYS** have your LED session before your tan. The LED instructions can be found on the ipad on the wall and also on our website.

4.

Once you've completed your LED session you can make your way into the tanning room. The tanning instructions can also be found on the ipad on the wall and also on our website.
